

OUR CIRCULATION IN RICHMOND AND MADISON COUNTY IS EQUAL TO THE COMBINED CIRCULATION OF ALL OTHER COUNTY PAPERS

HON. M. M. LOGAN

First Assistant Attorney General and Grand Master of the I. O. O. F. of Kentucky, who will make the principal address here Sunday at the First Christian Church at 3 o'clock p. m., on "Fraternity," the occasion being the joint memorial service of the local lodges of Odd Fellows and Knights of Pythias, of this city. Mr. Logan is one of the most gifted and forceful speakers in the State and the committee was fortunate in securing him for this occasion. A special musical program has been arranged, and at the conclusion of the services at the church the members of both orders will march in a body to the Cemetery, headed by the Second Regiment Band. On reaching the Cemetery, Mr. Wm. L. Wallace will deliver a short address on behalf of the Odd Fellows and Mr. Frank Leslie Russell on behalf of the Knights of Pythias. All Odd Fellows and Knights of Pythias are most cordially invited to take part in these ceremonies.

City Tax Lists.

The City Assessor is making out his tax books to present to the City Council Thursday night.

Booze Smashed.

Judge Barker and Marshal Chandler took 41 quarts of confiscated whiskey to the lower end of Main street Saturday and smashed the bottles on the rocks—Irvine Sun.

This is one of the cases which his Court of Inquiry named in our last issue brought to light. Try one here.

Big Fish.

A fifty-five pound cat fish is some fish. This was the size of a cat that was caught at Valley View a few days ago by a Mr. Lawson. Mr. John Malloy heard of this catch and straight away entered into negotiations with the Mr. Lawson which resulted in Mr. Malloy becoming the owner of the same. This fish measured about four feet in length and it was as fine a specimen as has been seen around here for many a day.

Mrs. Malloy is a fine cook. The editor knows this for he had the pleasure of tasting some of the fish which was cooked in her own inimitable style.

A Strong Indorsement

W. H. Holmes of the Decatur, Ia., Journal says: "I have been a sufferer from Piles and Hemorrhoids for years I got no relief until my druggist recommended Meritol Pile Remedy. Before I had taken half the package the distress was gone and I have no trouble since. I would not take a thousand dollars and be back in my former condition." Price 50c, \$1. Madison Drug Co. Vacation Schools.

The third session of the Vacation Schools will be opened at State Normal, Richmond Ky. Last year's session was a great success. The opening day is June 15; this special session closes July 23. Daily session (except Monday) from 9 a. m. to 12 m. The critic teachers of the Model School will be the regular instructors.

The latest approved methods of vacation schools in the great cities will be used. Regular work of the fundamentals in the Model School will be continued, and as special features the following: dramatization, play and games, music, manual training, domestic science, picnic and school lunches, home and school gardens, live nature study, public speaking, physical culture and gymnasium. Only a limited number of pupils can be accommodated in these schools. Patrons interested should see the critic teachers at once or write the President "First come, first served," the rule. There will be no tuition, no fees of any sort.

J. G. Crabbe, President.

Mrs. G. W. Perryman was notified of her appointment as chairman of the Social Service Committee of the Woman's Missionary Union of the State. Mrs. Perryman left for Louisville to organize the committee and arrange for the work which it has to perform.

A Mistake Made By Many.

Don't wait for rheumatism to indicate diseased kidneys. When you suffer pains and aches by day and sleep disturbed bladder weakness by night, feel tired, nervous and rundown, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley's Kidney Pills put the kidneys in sound, healthy condition and keep them active and strong. Begin taking today. Good results follow the first dose. Postponed.

On account of the severe rains which visited Boonesboro, the Fish Fry scheduled for the 27th ult, was postponed until June 10.

Rural Carrier Examination.

The U. S. Civil Service Commission has announced an examination for the county of Madison to be held at Richmond on June 26, 1915, to fill the position of rural carrier at Newby and vacancies that may occur on rural routes from other post offices in the above mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1077. This form and application blanks may be obtained from the offices mentioned above or from the U. S. Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest possible date.

MINISTER VON JAGOW
Explains Purpose of Berlin Note in Reply to Wilson Note.

NOTE IS NOT FINAL ANSWER

German Secretary States Answer Intended to Establish Basis.

Berlin, via London, May 31.—The Imperial German foreign secretary, Herr von Jagow, has explained that the German government had sent an interim note to the United States and not a final answer to President Wilson's communication.

"The issues involved," said Herr von Jagow, "are of such importance, and the views in regard to the Lusitania show such variance, that the German government believed it essential to attempt to establish a common basis of fact before entering into a discussion of the issues involved."

"We hope and trust that the American government will take the same view of the case and let us know in what points their understanding of the facts differ from the German view. point as set forth in the note, and in what points they agree, before looking for a direct answer to their communication."

"The American note, of course, leaves the way open for a preliminary discussion of the situation as suggested in the German note. I hope that such a common basis of fact, once established, may serve as the ground work for further conversations."

Rauch Begins Work.

Washington, May 31.—Representative George W. Rauch, of Marion, Ind., and Kennedy F. Rea, clerk of the senate committee on appropriations, formerly of Ripley county, Ind., will be members of a party of representatives and reclamation officials who will start next Tuesday for a tour of the reclamation projects in the west.

BERLIN NOTE IS UNACCEPTABLE

Silent on Wilson's Most Vital Demands.

ACTION OF U. S. UNCERTAIN

No Determination Has Been Reached by Government as to Policy It Will Pursue—Depends on Public Sentiment.

Washington, May 31.—From unofficial sources the full text of Germany's reply to President Wilson's note has been received here and was even more disappointing to administration officials than the summary of its contents indicated.

As a matter of fact the only specific concessions that the United States obtains from Germany from this note is an expression of regret in regard to the loss of life of Americans on the Lusitania and a promise to compensate for non-contraband carrying vessels which have been sunk through Germany's fault. Neither of these concessions is new. Both were contained in previous notes to the state department.

Frankly, the German note is unacceptable to this government, but no determination has been reached as to the course of action that will be pursued by the United States. The will depend chiefly upon the expressions of public sentiment in this country within the next few days.

The text of Germany's note discloses that she conceded even less to the United States than was supposed from the submarine that had been wired from Berlin. On the most vital point in President Wilson's note—his demand for prompt action to prevent a recurrence of the Lusitania outrage—the German note not only is silent, but contains a statement which is interpreted as a rejection of the imperial government's determination to pursue her submarine operations.

"It (the imperial government), says the note, 'is unable to consider British merchant vessels any longer 'undefended territory' in the war zone in time of war designated by the admiralty and staff of the imperial navy. German commanders consequently are no longer in the position to observe the rules of right of capture otherwise usual and with which they invariably comply before the war.'"

The only way in which this flat statement of Germany's position is qualified is in a sentence in which the foreign office says that it reserves flat statement of its position with regard to the demands made in connection with the sinking of the Lusitania, until a reply is received from the American government.

It is assumed here that Germany would not have made these flat repudiations of her policy in the face of President Wilson's demands unless she intended to stand by them to the end.

These statements are regarded as the most important in the note affecting as they do the vital principles underlying the case of the United States.

An examination of the text of the note shows also that Germany does not go as far in satisfying the United States as regards the Gulfight and Cushing as was represented in the Berlin summary. Germany does not acknowledge that the attacks on these two American vessels were "unintentional." She does not even express regret for these attacks. She merely says that an investigation is in progress to determine the facts in these cases and if Germany is at fault, she will offer her regrets and compensation in accordance with promises already made to neutral nations in regard to neutral vessels.

This is taken to mean that Germany, if she finds as reports indicate, that the Gulfight and Cushing were carrying contraband of war will regard the attacks as justified, so far as her submarine program is concerned.

Although no reference is made to arbitration in the note, it shows that Germany stands committed to her previous offer to submit to the Hague for investigation, cases of non-contraband carrying vessels of neutral nations where Germany is not satisfied of the own responsibility. This offer of arbitration in no way affects the Lusitania and Nebraskan cases.

Fine Worth Hitting Son-in-Law.

Columbus, Ind., May 31.—"I'd just as leave pay that fine as take a drink of water. Judge I'm glad to pay the fine because I hit him." Thus did Mrs. Johanna Thomas make an announcement in the court of E. H. Kinney, justice of the peace here. Charles Lacy, son-in-law of Mrs. Thomas filed an affidavit charging assault and battery. Mrs. Thomas sustained to the court when she heard about the affidavit, pleaded guilty and paid the fine of \$1 and costs, amounting to \$11.

Hangs Himself in Barn.

Muncie, Ind., May 31.—When James Runkle went to the barn at his home to get some wood he found the body of his brother Roy dangling on the end of a rope tied to a raft. It is believed the young man committed suicide because of ill health.

LOUISVILLE MAN IS KILLED

Buckners' Station Agent Run Down by an L. & N. Train.

Lagrange, Ky. (Special): Manuel Empson, twenty-nine years old, retired station agent of the Louisville and Interurban railroad at Buckners station, near here, was struck and instantly killed by a Louisville and Nashville train. His body was not found until three hours later. It was taken to his home in Louisville. Empson boarded an eastbound interurban car at Buckners at 8:15 o'clock at night to give orders to the motorman. He rode to the next stop and started to walk back. He walked on the L. & N. tracks, however, and apparently did not hear an approaching southbound passenger train. The agent was missed and searching parties did not find him until several hours later. A special car brought his father and father-in-law here and later his wife and child, who took the body to Louisville.

COUNTERFEITING CHARGED

Bound Over to Federal Court in Default of Bail.

Madisonville, Ky. (Special): United States Marshal Jackson arrested Dottie Harris at Providence for counterfeiting. Harris, when arrested, had a mold and five and fifty-cent pieces. Recently \$1 and \$2 bills have been raised to \$10 and \$20 here. Harris was taken before Commissioner Alvin Clark at Hopkinsville, where he waived examination and was sent to Owensboro jail in default of \$1,000 bail.

Formalin Cure For Bloat in Cattle.

Lexington, Ky. (Special): The Kentucky agricultural experiment station has made the important announcement that it has been found from experiments conducted at the station that a cheap and convenient solution of formalin will almost immediately relieve bloat in cattle, which is so prevalent and destructive at this time of the year. During the early summer cattle owners have to use much salt to prevent their cattle from having bloat from eating too freely of green clover, especially when it is wet from rains or even dew.

Jones Not Guilty.

Hazard, Ky. (Special): The jury that was trying John Jones for the killing of James Combs, has reported, finding the defendant not guilty of murder, as charged, and Jones was released from custody. The case created some considerable interest here. It took three days to complete the jury, so widely known were the facts in the case, and so widely related were the parties interested.

Lost His Finger.

Frankfort, Ky. (Special): William P. Apperson, a farmer, had a portion of a finger torn away here by having it caught in a breast-chain while he was working a team of unruly mules.

Increase Assessment.

Frankfort, Ky. (Special): The state board of equalization increased the assessment of farm lands in Gallatin county five per cent and farm lands in Henry county three per cent.

ROUMANIA RULER

Friendship Cought by German Emperor.

KING FERDINAND

London, May 31.—According to the Amsterdam correspondent of the Exchange Telegraph company German diplomacy is exerting itself in every possible way to persuade Roumania to preserve its neutrality. Emperor William has invited the king of Roumania to send a military mission to German headquarters, and Prince Charles von Wedel is being sent to Roumania on a confidential mission from the emperor. The German press publishes rumors of a new German loan to Roumania, but this has not been confirmed.

STOCK DISEASE IN ELKHART COUNTY

Farmers Appeal to State Veterinarian For Help.

Goshen, Ind., May 31.—Elkhart county farmers are greatly alarmed as a result of the development of symptomatic anthrax among calves. Three animals on the John Good farm in Benton township died within a short time. Dr. F. A. Bolser, of New Castle, deputy state veterinarian, is here in consultation with Dr. W. J. Armour, special deputy. Bodies of dead animals were burned and every precaution is being observed to prevent contagion. The disease is always fatal. A supply of serum has been ordered and an order for general vaccination issued.

Dr. A. F. Folsom, state veterinarian, said that there had been several small outbreaks of symptomatic anthrax in Indiana within the last year. The disease, he said, has been reported in the front of the village of Washington county last year was stopped with the vaccination of 125 calves.

"In several of the western states, because of the prevalence of the disease, calves can not be raised with any degree of success unless they are vaccinated," said Dr. Folsom. "The disease, like tetanus, comes from a bacteria in the soil. It is infectious by direct contact. The disease is easily detected and infected cattle never reach the market. There would, however, be no danger to humans if they should eat of the cooked flesh."

SUBMARINE CHASES BOAT

Speed of Megantic Saves Ship From Lusitania's Fate.

London, May 31.—The White Star line steamship Megantic, which sailed from New York on May 4, for Liverpool, was reported by wireless to have been chased for more than an hour by a German submarine. Considerable alarm was caused here when a "S O S" was received from the liner, reporting that a submarine had been sighted. The first message was soon followed, however, by another stating that the Megantic had outdistanced the submarine and that it then was sixty miles southeast of Cork harbor.

Editor Married.

Covington Ind., May 31.—Wheeler McMillen editor and proprietor of the Covington Republican, and Miss Edna Deane, only daughter of Mr. and Mrs. Claude Deane, were married here.

Gets Divorce From Bigamist.

Connersville, Ind., May 31.—The marriage of Dora Mess and Alfred Mess was annulled in the circuit court here. Moss is serving a sentence in the county jail for bigamy.

FAIL TO BREAK RUSSIAN FRONT

Austro-Germans Forced to Retire at Szawli.

AUSTRIAN FORT IS TAKEN

Italians Capture Fort Luserna and Occupy Cortina D'Ampezzo Pass and Valley—No Fighting in West, Is Report.

Rome, May 31.—The government has officially issued an account of Italian war operations in Austria:

"On the Tyrol and Trentino frontier in the Giudicaria valley the Italians have occupied the important position of Glimpezza near Storo, on the high plateau of Aslago. Our artillery destroyed the armored forts of Luserna, which hoisted the white flag. Seeing this the Austrian forts at Belvedere directed a furious fire against Luserna, completing the destruction."

"In Cadore we have occupied the Cortina D'Ampezzo Pass, and all the neighboring valleys."

"The recently completed works of Vezzena have been entirely demolished by our artillery and afterwards occupied by our infantry, which subsequently advanced as far as the village of Vezzena, and which the Austrians abandoned several times. Our losses were slight."

"On the Friuli frontier the Austrians for a long time have been reinforcing their armament with many pieces of artillery of medium calibre, and on the left bank of the Isonzo they held strongly several positions dominating the passage of the river. We have occupied positions on the right shore protecting our advance toward Goritz."

"Heavy rains have swollen the river to exceptional volume, but our troops continue their steady advance with great vigor and in splendid spirit."

Barry, Wales, May 31.—The British steamship Tullochmoor, a vessel of 3,520 tons was shelled and sunk by a German submarine. The crew escaped and landed here. The Tullochmoor was in ballast from Genoa for South Shields.

Petrograd, May 31.—The official account of recent military operations has been issued by the Russian general staff:

"In the Szawli region the enemy, retiring from Duble was engaged on the Kurtovian-Pedubils line. Our troops occupied the enemy's positions, driving the Germans from Kurtovian, which is in flames. The enemy retired in disorder pursued by our troops."

"On the lower Dniepr the enemy's attacks have ceased."

"The enemy developed a strong artillery fire in the Osovices district without causing damage. There is no change of situation in the desperate battle on the San, between Sienawa and Peremysh. Our troops have made counter attacks along the Lubaczowka river and in front of the villages of Tuhlia, Kalinkov, Naklo and Barich. Many villages have changed hands several times. The enemy's attacks were prepared by the firing of asphyxiating bombs."

"Numerous prisoners from the army of General Makkensen testify to the enemy's enormous losses."

"Between Permysh and the great Dniester marsh, we repulsed three attacks made by the enemy to the east of Gosskowsk. The Germans reached our wire entanglements, but suffering severe losses, retired to their former positions. Exceedingly desperate fighting occurred beyond the Dniester. The enemy's advancing masses, undeterred by enormous losses, stormed our positions between the great Dniester marsh and Dolina. All attacks were repulsed. Our troops have assumed the offensive decisively all along the left bank of the Swica and along the front to the river Limnia. Our advance has developed very successfully in the neighborhood of Perykhonsko. We took more than 3,200 prisoners, including seventy-two officers. We also captured the standard of a reserve regiment and several machine guns."

Paris, May 31.—The war office announced that there was nothing to report.

CONVICT STRIKE BREAKERS

Found Guilty of Manslaughter For Killing Striker in New Jersey.

New Brunswick, N. J., May 31.—The jury, composed of Mercer county men, before which ten Rochester strike deputies were tried in the Middlesex court for the murder of Alessandro Tessitori, while making an attack on striking fertilizer plant workers at the Williams and Clark station on January 19, returned a verdict of guilty of manslaughter for each one of the defendants. The tenth defendant, John C. Smith, was acquitted. Most of the prisoners felt their position keenly. All were remanded to the Middlesex county jail to await sentence. The maximum penalty for manslaughter is ten years imprisonment.

RICHMOND, KY., WEDNESDAY, JUNE 2, 1915.

WE ARE SPRIZED.

Our worthy contemporary, The Kentucky Register, comes out in a long article in re the Circuit Judge's race and says that it thinks that it is time for the Madison County papers to declare for Shaekeford and then proceeds to pledge itself to him unqualifiedly.

Why bless your soul, Tom, what's smatter with yer. No one ever suspected that you had the matter under consideration or that you were on the fence. We are glad to know that you lit right when you did jump.

Whenever it becomes necessary for us to have to declare that we are for a Madison County man in preference to one from another county, we will hang crepe on the door and shut up the shop.

This paper is democratic because it wants to be, is for a Madison County man for the same reason. It is a MADISONIAN with the Madisonian spirit first, last and always.

It never seemed that it was necessary for it to so declare.

GOV. McDERMOTT.

Governor McDermott will address the voters of this county at the court house on the 11th day of June. The ladies are invited to hear him.

Governor McDermott is a finished orator, an able lawyer and his message to the people will be on the political issues of the day so far as they apply to the state campaign. It is the duty of the people to come out and hear him. This is an election where everybody is running on his own platform. You can't be too well informed. Whether you agree with him or not, you should hear him.

COMMUNICATIONS GALORE.

We have received this week communications from every where on every conceivable subject, which, had we used them, would have taken all our space. This thing touches our funny bone, just makes our risibles run. Every man connected with these "communications" has a nigger in the woodpile. All connected with public business are paid a salary. Yet they expect the papers to furnish the paper and work ab-so-lu-tely free. nO-ti-s:—You can't make a pack HOSS of this.

NO SMOKING.

If the proprietors of the barber shops in this city want to do something that will strike a popular chord in the breast of a long suffering public, they will adopt and enforce a rule prohibiting smoking in their shops. Also stop profanity and vulgarity. If they don't do this of their own accord, then let the City Dads show them how.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for full particulars.

Church Notes
METHODIST. Sunday, June 6, at 10:45, "Failure and Success in the Life of David." No evening service on account of commencing service at Normal School. **BAPTIST.** Sunday was a good day with us. The house was filled at both services. The Sunday School is encouraging. The young people had the best meeting we have seen for some time.

The pastor will preach Sunday morning on the "Presence of the Supernatural." The sermon at 7:30 will be "Our Young People." We hope to see every young person in every Baptist family in Richmond present. The young people of the community who do not attend any church are respectfully urged to attend. Let our folks who no longer consider themselves young people be sure and be there.

Remember we want you all in the Young People's meeting, 8:30. Everybody is welcome. J. R. Reynolds, Pastor. **CHRISTIAN.** The Christian Church is planning to have the largest attendance of the year next Sunday. Every member and friend of the church is expected to be present. A large offering will be made for Children's Day. Don't forget the time 9:30. Morning sermon by the pastor. In the evening the Baccalaureate services of Caldwell High School.

Rev. H. C. Shavers, of Winchester, will preach at Kavanaugh next Monday night and each night during the week. All invited to attend. The lawyers will tell you that Jas. W. Wagers has made a good deputy Circuit Clerk.

Normal Notes.

Roscoe Gilmore Scott, head of Eastern's English department, has had many calls for commencement addresses and lectures. Engagements recently filled at Broadhead, Burlington and Burgin; it is now time for the "C's." At each place the enthusiasm was very pronounced. At all three places students gathered in from nearby towns and helped to give a splendid reception. At Burgin, Mr. Scott was graciously entertained by Mrs. Holzelaw, daughter of Professor Kunkle, of Caldwell High School.

Last Tuesday Mr. Scott was honored by being asked to speak before the student body of Georgetown College. Here he received a great ovation from the large audience gathered in the College Chapel. He also made a thorough inspection of the College plant and was a guest of a number of classes. He addressed the chapel, using his new lecture "Lying At Third," and later spoke to the English students on "What Have You Men?" He was the guest while in Georgetown, of President Adams who showed every hospitality, including a baseball game between Georgetown and Transylvania, which was won by the "home team."

Saturday morning Mr. Scott was the main speaker at the Tate's Creek Sunday School Association, a convention held at the school of the Baptist Sunday Schools of this Association. Here he talked on "Attracting and Holding Your Audience." About thirty people from Richmond attended this splendid meeting at Crab Orchard. The feature of this meeting was Dr. Porter's wonderful sermon, "The World's Debt to Baptists."

Misses Ames, Hensel, Hansen and Mrs. Deane spent Monday in Lexington, where they visited schools. Incidentally they shopped. Mrs. Pattie Clay Hume and daughter, Elizabeth had also a pleasant jaunt to Lexington one day this week. The Modern School Baseball team has been organized as follows: Captain Robert Simmons; Manager Smith Park. Marion Lilly C. Thomas House P. Smith Park f. b. Richard Jett s. b. Kenneth Hamey t. b. Robert Simmons c. f. John Adams r. f. William Wagers S. S. Substitutes, John Lackey, Mark Phelps, Tom Phelps, Turley Noland, and George DeJarnett.

Games have been scheduled as follows: Midway Public School at Eastern, Friday, June 4, and Waco team, Saturday June 5th. Both games to be played in the afternoon. The team played Cynthiana H. S. Team on Monday of this week.

General News
President Wilson is preparing another ultimatum to Mexico. Conditions are described as intolerable. The cruiser North Carolina grounded at Alexandria, Egypt, was not damaged. The Nebraska which was torpedoed by a German submarine has reached port at Liverpool. It was not greatly damaged. The automobile races were postponed at Indianapolis until Monday. President Roosevelt sustained a broken rib when his horse slipped as he was mounting his horse. The injury gives some pain but no serious consequences are expected. The stock yard at Louisville will not be closed on account of the recent appearance of the foot and mouth disease. John T. Nesbitt an inmate of the Kentucky Confederate Home died at that place Friday morning from heart disease. He was a native of Bourbon county. Kentucky Heirs living in Frankfort and Woodford, Scott and other counties have brought suit to recover property in Texas valued at \$1,500,000.00. This property which contains over 4,000 acres was granted to Daniel Bourn who was killed in the battle of the Alamo. Jailer Tatum, of Harrodsburg, was assaulted by a negro prisoner when he was locking them up and was severely injured. His wife came to his rescue and saved her husband's life. The negro escaped and is still in hiding. Motion of the contestants of the local option election, by which Scott county voted "dry" last September, for a rehearing was overruled by the Court of Appeals and they sued out a writ of error to the U. S. Supreme Court. This prevents the mandate being issued by the Court of Appeals, that should have closed the saloons in Georgetown. The contest suit was filed on the ground that the County Judge had denied the city of Georgetown its constitutional rights by refusing it a separate vote on the question.

The Farmer's Special.

A train for farmers of the Eastern part of the State left Lexington Monday to tour the western part of the State and see how this section was farmed. Madison county is represented by T. H. Collins, J. W. Ballard, G. B. Turley, J. K. Baker, K. P. Spacco, E. T. Fish, W. H. Papp, T. J. Curtis, G. W. Phelps, and Joe Long. Exult county was represented by Turner Kelley. The train is under command of Geoffrey Morgan, of this county.

BEREA.

Misses Sallie and Sadie Laven were shopping in Richmond Friday. Mrs. Leonard Spence who underwent an operation for appendicitis at the Hospital here returned home Friday and is improving nicely. Mrs. J. I. Hughes and children, of Idamay are visiting her mother Mrs. E. M. Spence. Mrs. Bessie Lowen, of Richmond was the guest of Mrs. John Muncy, Saturday and Sunday. Mr. J. A. Adams spent a few days with his brother, E. E. Adams, of Richmond. Mr. and Mrs. A. E. Bender are the proud parents of an eight pound boy. He has been christened Beverly Aaron. Miss Peachie Baidon visited home folks at Conway, Saturday and Sunday. She was accompanied by Robert F. Spence who gave an interesting talk to the farmers at that place Saturday night.

We print more Farm News than paper in Eastern Kentucky. Please give us your items.

One of J. M. Rogers' brood mares, at his farm, near Burdick, gave birth to freak twins, one being a mule colt and the other a horse colt; so says a press dispatch from Campbellsboro.

Thoroughbred registrations as well as trotting have been decreased. It is said only about 1,500 foals of 1914 were registered last year with the Jockey Club, when 5,000 used to be the number.

Walter Boyd, of Bath county, bought 180 head of heifers at 6 and 6 1/2 a hundred. The average weights of the heifers was 725 pounds. He bought 114 of Ratliff & Clark fifty of Owen Ratliff, twenty of Blount & Peck and a few of C. E. Smathers, all of Bath.

Caywood & McClintock, of Paris, shipped a double deck car of sheep and lambs to the Cincinnati market Thursday evening, that they bought from Bourbon farmers at prices ranging from \$3 to \$5 per hundred pounds. The same firm also shipped a car load of hogs to Cincinnati Saturday evening that cost \$7 per hundred pounds.

William Moser, of Stanford, bought of R. B. Woods a pair of three year old mules for \$300. On the Chicago market, heavy horses are selling better and a sharp advance in cost of horses suited European army outfit has been noted recently.

C. T. Bohon, Lebanon, recently purchased a number of mules in Somerset at from \$130 \$160—\$160 was his limit, and several owners of mules refused to sell at this price. L. E. Vivian, Rawlin, Rawlins, Wyo.

"STAR—The Pocket-Pal of All Good Fellows"

Men Who Chew Are Men Who DO

If anywhere you find men ready at an instant's notice to do what is required of them, you find them in our army.

And few men love good tobacco like these iron-nerved soldiers—the steadiest, truest marksmen in the world.

Wherever there is an army post there's a big demand for STAR Tobacco. A soldier can't carry much baggage. Everything must be first class quality and compact.

That's STAR. Each thick 16 ounce plug is just chock full of ripe extra length, mellow, chewable leaf, pressed tight.

STAR's honest standard of full weight is as unvarying as the amount of gold in a new \$5 gold piece.

received 30 cents per pound for his wool clip, which will amount to some 210,000 pounds. This is said to be the best price ever paid on a Wyoming range.

Cattle prices were exceptionally high at Mt Sterling, Monday. There were 2,500 head on the market and the quality was good for May. Yearlings sold at 8, to 8 1/2 cents. Heifers 7 1/2 to 8 1/4 cents. The demand was heavy and buyers were on the market from all over the State. The pens were full for the first time in months as the quarantine was lifted only a short time ago.

In Missouri they have farm advisers who go from place to place, carry the technical knowledge of farming to the man at the plow. Here is the season's record: Eleven advisers visited 3,624 farmers at their farms, made 14,581 business calls, 14,718 telephone calls, wrote 1,600 agricultural articles, wrote 50,192 and addressed 1,195 meetings at which there was a total attendance of 128,321 persons. This is only about half of the things done in a single season between August 1 and October 31.

Dixie Highway
Two Routes Through Ken-
tucky
Unable to dispose of Cincinnati and
Lexington, because of the developments
coming at the last moment, and at the
same time compelled to recognize Louis-
ville, the Dixie Highway commission
Saturday attempted to settle the rout-
ing problem by placing Louisville on the
West Dixie highway, along with
Nashville and Lexington long with
Cincinnati, on the East Dixie highway.
The east and west routes converging
at Indianapolis and Chattanooga. Of-
ficial designations of both routes of the
Dixie highway is as follows:
West Route—Chicago, Momence,
Watauga, Hopedown and Danville, in
Illinois; Covington, Crawfordsville, in-
dianapolis, Martinsville, Bloomington,
Bedford, and Paoli, in Indiana; Louisville,

Monticello and Chattanooga, in Tennes-
see; Lafayette, Jonesboro, Summers
ville, Rome, Cartersville, Atlanta, Grif-
fin, Barnesville, Macon, Americus, Al-
bany and Thomasville, in Georgia; Tal-
lahassee, Live Oak, Lake City,
Jacksonville, St. Augustine, Palm
Beach and Miami, in Florida.
East Route, Joining West Route at
Indianapolis—Richmond, in Indiana;
Dayton and Cincinnati, in Ohio; Cov-
ington, Williamstown, Georgetown, Lex-
ington, Richmond, Berea and Cumber-
land Gap, in Kentucky; Knoxville,
Rockwood, Dayton and Chattanooga, in
Tennessee, and Dalton, Chatham, Atlan-
ta, McDough, Jackson and Macon, in
Georgia.

Before adjournment of the executive
session the Dixie Highway Association
adopted a charter, perfecting a perma-
nent organization of 21 directors, com-
prising the 14 Commissioners and the
seven original incorporators. A resolu-
tion was adopted providing that the var-
ious links must be completed within a
year. The association reserved the
right in its resolution to relocate any
portion of the highway where a county
or municipality, through which it was
designed to pass, failed to complete its
link within the year allowed.

Officers were elected as follows: Presi-
dent, C. E. James, Chattanooga; Vice
President's: Tennessee, M. M. Allison;
Ohio, H. L. Gordon; Indiana, Thomas
Taggart; Georgia, W. T. Anderson; Flor-
ida, G. W. Saxon; Kentucky, H. B.
Hanger; Illinois, Richard J. Finnegan;
Secretary-Treasurer, W. R. Long, Chat-
tanooga; Executive Committee, the
President and Secretary and Carl G.
Fisher, of Indianapolis; Richard Hardy,
Chattanooga, and Clark Howell, Atlanta.

A High Tribute.
Hon. A. F. Curran, of Maysville, a
veteran newspaper man, who has been
touring Kentucky, greatly surprised his
life-long friend, Mr. Frank Leslie Rus-
sell, by paying him a visit last Saturday.
Mr. Russell served an apprenticeship of
four years on the Dover News when Mr.
Curran was editor and owner of the
paper. For the past twenty-seven years
Mr. Curran has been engaged in news-
paper work, and just recently sold the
Maysville Daily Public Ledger at a
handsome price. The meeting was a day
of these two life-long friends was the
first in twelve years. Mr. Curran de-
livered messages of hearty good wishes
from a number of the most prominent
citizens of Mason county, both Demo-
crats and Republicans, to Mr. Russell,
all of whom expressed the hope that he
would be victorious in his race for Repre-
sentative of Madison county. He said:
"We all know Frank; we know his sir-
ling qualities, and we want to see him
win."

Colored Decoration Day.
The colored people of this city in ac-
cordance with their custom fittingly ob-
served this day on Monday. The orator
of the day was Rev. Green B. Miller as-
sisted by Prof. Crenshaw, both of whom
made interesting addresses. Jerry Tur-
ner was chaplain. One beautiful feature
of the exercises was a flag drill by about
thirty girls. This was enjoyed. Mrs.
Pattie Gwynn read Lincoln's Gettys-
burg address. The music by the church
choir consisted of military and patriot-
ic songs. A splendid lunch was furnish-
ed by the Women's Relief Corps. Jerry
Turner made some very appropriate
remarks at the cemetery.

FRIDAY—Wm. Fox presents Chas. Richman and
Katherine Countess assisted by
Claire Whitney and S. Holmes in
"The Idler"

Produced by Chas. Frohman in 5 Parts
Madly infatuated with the wife of his friend,—The Idler, a young English-
man of wealth and position,—is ready to go to almost any length to win
her for his own. Through his knowledge of incriminating circumstances
involving her husband, he attempts to persuade her to co-operate with him.
At this point the husband intervenes, and a denouement ensues, startling
in its dramatic intensity.

Most of the brides who are light housekeeping manage to turn out some pretty heavy food.

Wait about a month and you will discover that you won't want the thing that you feel you can't possibly get along without today.

A man imagines that courtesy compels him to pay another man's car fare. But a woman can see just as much sense in paying another woman's grocery bill as there is in paying her carfare.

Before she marries she is a princess. And after she is married for a little while she resigns as a queen. But after about ten years of married life and raising children you could walk into the kitchen and your first guess would be that she is the lady who is doing the washing, and the second guess would be that she is the lady who is getting six bits a day for scrubbing the woodwork.

The reason why a woman knows that her hair is her crowning glory is because she is always bawling for a new hat with which to hide it.

We do not believe in long engagements. But a fellow ought to give a girl a few sample lessons before he asks her if she thinks she could learn to love him.

We will never believe that there was any spring in 1915. We didn't get a single almanac displaying the signs of the zodiac around a young man who is wearing open faced anatomy.

KNOW THY COUNTRY

I—Introductory

"Know America" is a slogan that should ring out from every school room, office, farm and shop in this nation. No man can aspire to a higher honor than to become a capable citizen, and no one can merit so distinguished a title until he is well informed of the resources, possibilities and achievements of our country.

This is a commercial age and civilization is hearing its most golden fruit in America. We are noted for our industrial achievements as Egypt was noted for her pyramids; Jerusalem for her religion; Greece for her art; Phoenicia for her fleets; Chaldea for her astronomy and Rome for her laws. Likewise we have men who will go down in the world's history as powerful products of their age. For, standing at the source of every gigantic movement that sways civilization is a great man. The greatest minds travel in the greatest direction and the commercial geniuses of this age would have been the sculptors, poets, philosophers, architects, and artists of earlier civilizations.

As Michael Angelo took a rock and with a chisel hewed it into the image of an angel that ever beckons mankind upward and onward, Hill took the desert of the Northwest and with hands of steel made it blossom like a rose, dotted the valleys with happy homes and built cities in waste places. As Gutenberg took blocks of wood and whittled them into an alphabet and made a printing press that has flung education across the continent like a ray of light upon a new born world, McCormick took

KNOW THY COUNTRY

II—Railroads

In discussing the commercial achievements of this great age, we shall approach the subject as the historian chronicling events. This series will endeavor to record in writing the supremacy of American men and industries in the world's affairs and perpetuate an appreciation of our marvelous industrial achievements by presenting simple facts, figures and comparisons that are overpowering in their convictions.

America holds her proud place among the nations of the earth today on account of her supremacy in transportation facilities. The mighty minds of the age are engaged in the problems of transportation, and the greatest men in the history of the world's commerce are at the head of the transportation systems of the United States.

In the discussion of transportation, let us consider separately our Railways, Telegraph and Telephone, Express, Public Highways, Steamships, Street Railways, Interurban and other forms of transportation, and this article will deal with railways.

The United States has the largest mileage, the best service, the cheapest rates, the highest wages, and we have the most efficient management of the railways of the world. They stand as a monument to the native genius of our marvelous builders, and most of the railroads in foreign countries have been built under American supervision.

The railroads represent a larger investment of capital than any other branch of human activity. The mileage in the United States exceeds

KNOW THY COUNTRY

III—Telegraph and Telephone

Our transportation facilities are the most perfect product of this great commercial age and the telegraph and telephone systems of this nation crown the industrial achievements of the whole world. These twin messengers of modern civilization, born in the skies, stand today the most faithful and efficient public servants that ever toiled for the human race.

They are of American nativity and white warm from the mind of the inventive genius have, under American supervision, spun a network of wires across the earth and under the seas. Telegraphy, in its early youth, mastered the known world and the telephone has already conquered the earth's surface, and now stands at the seashore ready to leap across the ocean.

The industry in the history of the world has ever made such rapid strides in development and usefulness, and none has ever exerted a more powerful influence upon the civilization of its day than the Telegraph and Telephone. Their achievement demonstrates the aptitude of two distinct types of American genius—invention and organization.

The industry was peculiarly fortunate in having powerful inventive intellect at its source and tremendous minds to direct its organization and growth. It is the most perfect fruit of the tree of American industry, and when compared with its European contemporaries, it thrills every patriotic American with pride.

Faille Silk Gown, Taupe In Color, With Embroidery Done In Beige

Designed by Joseph, New York.

THERE is a tendency this season to substitute faille silk for satin, and many of the extremely modish frocks are developed in that material; also we are wearing subdued colors, for we have been psychologically affected by the war abroad, and our days of riotous colorings are over for the present. Of course when the whole world is painted in somber shades the dress of the world's femininity must reflect the general tone.

This may account for the desire for the faille silk, which has a subdued sheen, and also for the shades of beige and taupe, which are so popular. Featured in this illustration is a faille silk gown, taupe in color, with embroidery done in beige. The apron effect is new, reminiscent somewhat of the Swiss peasant costume. This is edged with embroidery, as are the tiny jacket, the sleeves and girdle. Worn under this jacket is a satin and green-striped blouse. ANNA MAY.

Dancing Gown of Orchid Silk

Designed by Joseph, New York.

Quaint Trousers Effect, Girdle of Opalescent Bandings and Bodice of White Chiffon

ORIENTALISM, with all its glow and sparkle and color, is suggested by the gown in this illustration. Dreams of the harem and the lazy life indulged in by its inmates dance before our mental vision. The skirt only suggests, however, the trousers of the harem since it is developed upon an underskirt and simply turned up at the bottom and sewed fast to the underskirt.

The long waisted bodice is attached to the skirt by a girdle of opalescent bandings, the same trimming outlining the top of the bodice. The gown is developed in orchid silk. The bodice is of white chiffon. The trimming around the top of the bodice and the girdle is linked together by strands of iridescent beads. Chiffon is used for the tiny sleeves; also to build up the top of the bodice. Both sleeves and neck are outlined with iridescent beads.

There is a marked difference in the belts and girdles of today. In the past, they are much narrower, and, in the second place, nearly every one of them has a military touch.

Gilt tassels are being worked very hard to do their part toward giving the military note, and brass buttons

are employed to add to the soldierly appearance. Very convenient for small change are the two small pockets which frequently appear on each side of a belt. The coin is quite safe, for each receptacle is provided with a button and buttonhole to fasten the pocket flap to the belt proper.

The somberness of a black moire girdle is relieved by three rows of gilt beads, arranged down the front, and two gilt tassels, which suspend from the points of a turnover effect placed at the top of the girdle. Beaded and blue is a substantial old fashioned combination, and its revival is cordially welcomed. For the street it is admirable in cloth or linen, and we shall see much of both of these before the summer is advanced. In the evening there is a strong inclination to drop dark blue over mastic colored satin, but the effect is not so good as when the colors are contrasted in a less violent way. A blue and white satiny girdle on a blue chiffon gown goes very well, and blue collar and cuffs in the cavalier fashion on an afternoon frock of mastic colored satin are well worth adopting.

Attention, Democrats

(Advertisement)

Of late much interest has been created in the race for the Legislature, as three candidates are already in the field, some still announcing and others yet thinking of announcing. We realize the importance of this high office, and that a man should be sent there who would be a credit and an honor to this county. It is well known that the popular young candidate Walter Q. Park was probably the first to announce with the cause of his county, her needs and interests at heart. We have due appreciation and deepest regards for each and every candidate announced, and have nothing to say against any of them, but now the important question of selecting the alround best qualified man to fill the place confronts us, and we should heed it with our deepest thought. We consider Mr. Park as well qualified as any man in the county, for this position. He is well known throughout the entire county, and can command a large following. He is a member of one of the county's most prominent and highly esteemed families, is well educated especially along legislative lines, is honest and sincere to the core, and his county could always rely upon him and be proud of him on the legislative floor. He is a farmer, a son of a farmer, a grandson and a great-grandson of a farmer, and none have been office holding or seeking people. It must be remembered that farming is Madison's most important industry by far, and they—the farmers—should be allowed a representative once in a while, to such a body in which they are so deeply concerned. Mr. Park is their candidate and is being strongly backed by them, and would therefore be the logical man for the place which he seeks. He has been announced some little time, and already has the situation well in hand, is the strongest man in the field the good Democrats and tax payers can back and support. So we earnestly request the Democrats of Madison to give Walter Q. Park their undivided support and influence in this race. He stands for the Purity of Home, Supremacy of the Law, and the Relief of a Tax Burdened People.

Lesson X.—Second Quarter, For June 6, 1915.

THE INTERNATIONAL SERIES.

Text of the Lesson, 11 Sam. xl, 22 to xli, 7a—Memory Verses, xli, 5, 6, 7a. Golden Text, Ps. li, 10—Commentary Prepared by Rev. D. M. Stearns.

Instead of assigning us a helpful lesson, such as chapter viii, which we briefly touched upon in our last, or the beautiful story of David's kindness to the son of Jonathan (chapter ix), the committee has given us in this lesson one of the worst phases of the human heart, which is always and only deplorable above all things and desperately wicked (Jer. xvii, 9, 10). He who alone knows and can search the heart has caused this and all similar records to be written that we might see more clearly that all are sinners and that there is none righteous—no, not one—but that Jesus Christ came into the world to save sinners and that the greatest sinner may be saved and the greatest backslider forgiven and restored. To find such a development of our sinful human nature in such a man as David after all that the Lord had done for him is truly humiliating and should lead us all to say, "Woe is me" for who is there to whom the prophet might not say concerning this or some other phase of our sinful nature, "Thou art the man" (xli, 7).

When we remember that "the thought of foolishness is sin" and that a sinful look is in the sight of God equal to a sinful act (Prov. xxiv, 9; Matt. v, 28) and that, as C. H. Spurgeon said, "Whatever the Lord Jesus Christ would not think or say or do is sin," it leads one to cry out, "God be merciful to me, a sinner," and to say, "If thou, Lord, shouldst mark iniquities, O Lord, who shall stand?" (Luke xviii, 13; Ps. cxxx, 3, 4). But the comfort is that He can make the vilest whiter than snow (Ps. li, 7). It is interesting to note that, while the child yet lived, David fasted and wept and lay all night upon the earth, for he said, "Who can tell whether God will be gracious to me, that the child may live?" But when the child died and the will of God was known then he said, "Wherefore should I fast? Can I bring him back again? I shall go to him, but he shall not return to me" (verses 15-23). When those dear to us are sick and cannot tell what the will of God is for them and us it comes to us to wait earnestly upon Him for their health, but always in submission to His will. When He has made plain His will, whatever it may be, it becomes us to say, "Even so, Father," for we know that the hand of God, His will is perfect" (Matt. xi, 26; Ps. xviii, 30). In verses 24, 25, we have the two names of Bathsheba's next child, Solomon and Jedidiah. The latter, as in the margin, signifies "beloved of the Lord," for the Lord loved him and sent by the hand of Nathan to name him. The Lord called him Solomon before he was born, saying to David, "Behold, a son shall be born to thee who shall be a man of rest, * * * and I will give peace and quietness unto Israel in his days" (Chron. xii, 9). He said, "His name shall be Solomon," which, according to the margin, means "peaceable."

There are just seven men in the Bible story who were named before they were born—five in the Old Testament and two in the New Testament. Find the others and consider them. Let us give the rest of our time to the very suggestive story of Mephibosheth in chapter ix.

When David came to the kingdom he made inquiry for any who might be living of the house of Saul that he might show them kindness for Jonathan's sake. He found that there was a son of Jonathan who was lame on both feet, his nurse having let him fall when he was five years old as she took him up to flee with him at the time of his father's death (11 Sam. iv, 4). His being lame because of the fault of another reminds us that the whole race is lame on both feet because Adam let us all fall. He was at this time at Lo-dabar, which signifies no pasture, and that is where all sinners are. His name also signifies the condition of every sinner. David sent to where he was and brought him into his presence, and Mephibosheth fell on his face and did reverence. So the sinner when brought face to face with the Saviour (that is by faith) feels like saying, as Peter did when overwhelmed with loving kindness, "I am a sinful man, O Lord" (Luke v, 8). David's restoring to him all that he had forfeited because of Saul reminds us that all we lost in Adam and more is given back to us in Christ and all in grace for His name's sake.

How beautiful to see Mephibosheth dwelling in Jerusalem and eating continually at the king's table, even though he continued lame on both his feet (ix, 13). Every saved sinner is privileged to dwell by faith in Jerusalem, City of Peace, and to feast upon the good things provided by the king, but while we stay in the mental holes we will never get over our lameness, but will have to say to the end, "I know that in me—that is, in my flesh—dwelleth no good thing" (Rom. vii, 18). Some believers seem to take pleasure in talking of their lameness, their love is cold, their faith is weak, they are this and that and very miserable sinners. Better far to keep their lameness out of sight and enjoy and talk of the king's bounty.

4—HASTE AND IMPATIENCE

The majority of people who use the telephone are in a hurry. They want to communicate quickly with some one and the slightest delay is likely to cause impatience and irritation. If a busy man waits a few seconds for a response from the operator when he is using the telephone in haste, these seconds seem like minutes. If he is told that the line is busy it is likely to exasperate him. If telephone users could see the operators at work while they are calling, or if they could see how many others are to be served at the same time, as in the case of a bank or in a store, the seconds that seem so long would pass unnoticed.

Understand, however, our de-

sire is to give efficient and reliable service. But even a service that has a high average of speed and accuracy will appear slow to a man or a woman who is in a hurry. We simply ask that our subscribers bear these things in mind when they use the telephone. We are willing for any one to hold a stop-watch and record the time of any number of calls. The average will show quick service, and it's the average that counts.

We want every subscriber to receive efficient service. That is what we are in business for. If the service you are receiving does not appear to you to be efficient, we want you to report it promptly to the manager. We will see that the fault is corrected.

A Bush League Hero

This is not a baseball story. The grand stand does not rise as one man and shout itself hoarse with joy. There isn't a three-bagger in the entire three thousand words, and nobody is carried home on the shoulders of the crowd. For that sort of thing you need not squander fifteen cents on your favorite magazine. The modest sum of one cent will make you the possessor of Pink 'Un. There you will find the season's games handed in as early as fashion by a six-best-seller artist, an expert mathematician, and an original slang humorist. No mere short story dub may hope to compete with these.

In the old days, before the century of the ring had learned the art of investing their winnings in solids instead of liquids, this used to be a favorite conundrum: When is a prize fighter not a prize fighter?

Chorus: When he is tending bar.

I rise to ask you, Brother Fan, when is a ball player not a ball player? Above the storm of facetious replies I shout the answer:

When he's a shoe clerk.

Any man who can look handsome in a dirty baseball suit is an Adonis. There is something about the baggy pants, and the Micawber-shaped collar, and the skull-fitting cap, and the foot or so of tan, or blue, or pink under shirt sleeve sticking out at the ankle, that just naturally kills a man's best points. Then, too, a baseball suit requires so much in the matter of leg. Therefore, when I say that Rudie Schlachweiller was a dream even in his baseball uniform, with a dirty brown streak right up the side of his pants where he had slid for base, you may know that the girls camped on the grounds during the season.

During the summer months our ball park is to us what the Grand Prix is to Paris, or Ascot is to London. What care we that Evers gets ten thousand a year (or is it a month?), or that Chicago's South side ball park seats thirty-five thousand (or is it a million)? Of what interest are such meager items compared with the knowledge that "Pug" Coulan, who plays short, goes with Undine Meyers, the girl up there in the eighth row, with the pink dress and the red stockings on her hat? When "Pug" snatches a high one out of the fragment we yell with delight, and even as we yell we turn sideways to look up and see how Undine is taking it. Undine's shining eyes are fixed on

"Pug," and he knows it, stoops to brush the dust off his dirt-begrimed baseball pants, takes an attitude of careless grace and misses the next play.

Our grand stand seats almost two thousand, counting the boxes. But only the snobs, and the girls with new hats, sit in the boxes. Box seats are comfortable, it is true, and they cost only an additional ten cents, but we have come to consider them undemocratic, and unworthy of true fans. Mrs. Freddy Van Dyne, who spends her winters in Egypt and her summers at the ball park, comes out to the grandstand every afternoon in her automobile, but she never occupies a box seat; so why should we? She perches up in the grand stand with the rest of the enthusiasts, and when Kelly puts one over she stands up and clutches her fists, and waves her arms and shouts with the best of 'em. She has even been known to cry, "Good eye! Good eye!" when things were at fever heat. The only really fine individual in the ball park is Willie Grimes, who peddles ice cream cones. For that matter, I once saw Willie turn a languid head to pipe, in his thin voice, "Give 'em a dark one, Duteb! Give 'em a dark one!"

Well, that will do for the first dash

"You're Going to the Ball Game With Me."

of local color. Now for the story. Ivy Keller came home June 19 from Miss Shont's select school for young ladies. By June 21 she was horeed limp. You could hardly see the plait of her white tailored shirt waist for fraternity pins and secret society emblems, and her bedroom was ablaze with college banners and pennants such an extent that the maid gave notice every Thursday—which was upstairs cleaning day.

For two weeks after her return Ivy spent most of her time writing letters and waiting for them, and reading the classics on the front porch, dressed in a middie house and a blue skirt, with her hair done in a curly Greek effect like the girls on the covers of the Ladies' Magazine. She posed against the canvas bosom of the porch chair with one foot under her, the other swinging free, showing a tempting thing in beaded slipper, silk stocking, and what the story writers call "slim ankle."

On the second Saturday after her return her father came home for dinner at noon, found her deep in volume two of "Les Miserables."

"Where! This is a scorcher!" he exclaimed, and dropped down on a wicker chair next to Ivy. Ivy looked at her father with languid interest, and smiled a daughterly smile. Ivy's father was an insurance man, alderman of his ward, president of the Civic Improvement club, member of five lodges, and an habitual delegate. It generally was he who introduced distinguished guests who spoke at the opera house on Decoration day. He called Mrs. Keller "Mother," and he wasn't above noticing the fit of a gown or a pretty feminine figure. He thought Ivy was an expurgated edition of Lillian Russell, Madame De Stael, and Mrs. Pankhurst.

"Aren't you feeling well, Ivy?" he asked. "Looking a little pale. It's the heat, I suppose. Gosh! Something smells good. Run in and tell mother I'm here."

Ivy kept one slender finger between the leaves of her book. "I'm perfectly well," she replied. "That must be beef-steak and onions. Ugh!" And she shuddered, and went indoors.

Dad Keller looked after her thoughtfully. Then he went in, washed his hands, and sat down at table with Ivy and her mother.

"Just a silver for me," said Ivy, "and no onions."

Her father put down his knife and fork, cleared his throat, and spoke thus:

"You get on your hat and meet me at the 2:45 interurban. You're going to the ball game with me."

"Ball game!" repeated Ivy. "I? But I—"

"Yes, you do," interrupted her father. "You've been moping around here looking a cross between Saint Cecilia and Little Eva long enough. I don't care if you don't know a spit-ball from a fadeaway when you see it. You'll be out in the air all afternoon, and there'll be some excitement. All the girls go. You'll like it. They're playing Marshalltown."

Ivy went, looking the sacrificial lamb. Five minutes after the game was called she pointed out the pitcher's mound, and the direction of the pitcher's mound.

"Who's that?" she asked.

"Pitcher," explained Papa Keller, laconically. Then, patiently: "He throws the ball."

"Oh," said Ivy. "What did you say his name was?"

"I didn't say. But it's Rudie Schlachweiller. The boys call him 'Dutch.' Kind of a pet, Dutch is."

"Rudie Schlachweiller?" murmured Ivy, dreamily. "What a strong name!"

"Want some peanuts?" inquired her father.

"Does one eat peanuts at a ball game?"

"It ain't hardly legal if you don't," Papa Keller assured her.

"Two sacks," said Ivy. "Papa, why do they call it a diamond, and what are those brown bags at the corners, and what does it count if you hit the ball, and why do they rub their hands in the dust and then—er—sput on them, and what salary does a pitcher get, and why does the red-haired man like that boss the second and third brown bag, and doesn't a pitcher do anything but pitch, and wh—?"

"You're on," said Papa.

After that Ivy didn't miss a game during all the time that the team played in the home town. She went without a new hat, and didn't care whether Jean Valjean got away with the goods or not, and forgot whether you played third hand high or low in bridge. She even became chummy with Undine Meyers, who wasn't her kind of a girl at all. Undine was thin in a voluptuous kind of way, if such a paradox can be, and she had red lips, and a roving eye, and she ran around downtown without a hat more than was strictly necessary. But Undine and Ivy had two subjects in common. They were baseball and love. It is queer how the limelight will make heroes of us all.

Now "Pug" Coulan, who was red-haired, and had shoulders like an ox, and arms that hung down to his knees like those of an orang-outang, slaughtered bees at the Chicago stock yards in winter. In the summer he

slaughtered hearts. He wore mustard-

colored shirts that matched his hair, and his baseball stockings generally had a rip in them somewhere, but when he was on the diamond we were almost ashamed to look at Undine, so wholly did her heart shine in her eyes.

Now, we'll have just another dash or two of local color. In a small town the chances for hero worship are few. If it weren't for the traveling men our girls wouldn't know whether stripes or checks were the thing in gentlemen's suits. When the baseball season opened the girls swarmed on it. Those that didn't understand baseball pretended they did. When the team was out of town our form of greeting was changed from, "Good morning!" or "Howdy-do!" to "What's the score?" Every night the results of the games throughout the league were posted up on the blackboard in front of Schlachweiller's hardware store, and to see the way in which the crowd stood around it, and streamed across the street toward it, you'd have thought they were giving away gas stoves and hammock couches.

Going home in the street car after the game the girls used to gaze adoringly at the dirty faces of their sweat-begrimed heroes, and then they'd rush home, have supper, change their dresses, do their hair, and rush downtown past the Parker hotel to mail their letters. The baseball boys hoarded over at the Griggs house, which is third-class, but they used their toothbrush and held the post-mortem of the day's game out in front of the Parker hotel, which is our leading hostelry. The post office receipts

what was the matter with your arm today? Rudie let three men walk, and Albia's weakest hitter got a home run out of you."

"Oh, forget baseball for a minute, Ivy! Let's talk about something else. Let's talk about—us."

"Let's? Well, you're baseball, aren't you?" retorted Ivy. "And if you are, I am. Did you notice the way that Ottumwa man pitched yesterday? He didn't do it by acting for the grand stand. He didn't reach up above his head, and wrap his right shoulder with his left toe, and swing his arm three times and then throw seven inches outside the plate. He just took the ball in his hand, looked at it curiously for a moment, and fired it—zing!—like that, over the plate. I'd get that ball if I were you."

"Isn't this a grand night?" murmured Rudie.

"But they didn't have a hitter in the bunch," went on Ivy. "And not a man in the team could run. That's why they're tail-enders. Just the same, that man on the mound was a wizard, and if he had one decent player to give him some support—"

Well, the thing came to a climax. One evening, two weeks before the close of the season, Ivy put on her hat and announced that she was going downtown to mail her letters.

"Mail your letters in the daytime," growled Papa Keller.

"I didn't have time today," answered Ivy. "It was a thirteen-inning game, and it lasted until six o'clock."

record for our town was broken during the months of June, July and August.

Mrs. Freddy Van Dyne started the trouble by having the team over to dinner, "Pug" Coulan and all. After all, why not? No foreign and impetuous princes penetrate as far inland as our town. They get only as far as New York, or Newport, where they are gobbled up by many-moneyed matrons. If Mrs. Freddy Van Dyne found the supply of available lions limited, why should she not try to content herself with a jackal or so?

Ivy was asked. Until then she had contented herself with gazing at her hero. She had become such a hardened baseball fan that she followed the game with a score card, accurately jotting down every play, and keeping her watch open on her knee.

She sat next to Rudie at dinner. Before she had nibbled her second salad almost Ivy Keller and Rudie Schlachweiller understood each other. Rudie illustrated certain plays by drawing lines on the tablecloth with his knife and Ivy gazed, wide-eyed, and allowed her soup to grow cold.

The first night that Rudie called, Papa Keller thought it a great joke. He sat out on the porch with Rudie and Ivy and talked baseball, and got up to show Rudie how he could have got the goat of that Keokuk catcher if only he had had one of his famous open-faced throws. Rudie looked politely interested, and laughed in all the right places. But Ivy didn't need to pretend. Rudie Schlachweiller spelled baseball to her. She did not think of her father as good-looking young man in a blue serge suit and white shirt-waist. Even as he sat there she saw him as a blond god standing on the pitcher's mound, with the scars of battle on his baseball pants, his left foot placed in front of him at right angles with his right foot, his gaze fixed on

first base in a cunning effort to deceive the man at bat, in that favorite attitude of pitchers just before they get ready to swing their left leg and hit one over.

The second time that Rudie called, Papa Keller said:

"Ivy, I don't like that ball player coming here to see you. The neighbors'll talk."

The third time Rudie called, Papa Keller said: "What's that guy doing here again?"

The fourth time Rudie called, Papa Keller and Ma Keller said, in unison: "This thing has got to stop."

But it didn't. It had had too good a start. For the rest of the season Ivy met her knight of the sphere around the corner. There was a walking courtship. They used to roam up as far as the state road, and down as far as the river, and Rudie would faint have talked of love, but Ivy talked of baseball.

"Darling," Rudie would murmur, pressing Ivy's arm closer, "when did you first begin to care?"

"Why, I liked the very first game I saw when dad was in the dugout."

"I mean, when did you first begin to care for me?"

"Oh! When you put three men out in that game with Marshalltown when the teams were tied in the eighth inning."

"The Wonder Car"

16 Great Service Branches—54 Maxwell District Offices—More than 2,000 Maxwell Dealers are always at the Service of Those Who Drive Maxwell Cars

When you buy an automobile you buy two kinds of service. First—The service given and guaranteed by the car itself. Second—The service given by the maker and the dealer while the car is in use.

The service the Maxwell car gives is known. 38,000 satisfied Maxwell owners have given the car the rough and tumble acid test of fully eighteen months' service. The Maxwell has shown that it is able to stand up under the severest use. In cities, over country roads, through mud and sand and up the steepest mountains, the 1915 Maxwell has made good for 38,000 owners.

THE SERVICE THAT THE MAXWELL MOTOR COMPANY GIVES

The service that the Maxwell car gives cannot be questioned. Any automobile owner from time to time requires service

from the maker of the car he drives. He sometimes needs new parts, adjustments, etc.

16 GREAT MAXWELL SERVICE BRANCHES

The Maxwell Motor Company takes care of Maxwell owners by maintaining 16 great Maxwell Service Branches. These branches are in great cities which have been selected in such a manner as to thoroughly cover the United States. They can deliver parts to any Maxwell dealer or Maxwell owner within a few hours.

54 MAXWELL DISTRICT OFFICES

54 Maxwell District Offices are maintained in leading cities. This means 54 District Managers, each with a corps of assistants. A great big part of the work of this army of skilled men is to see that Maxwell dealers give real Maxwell service to Maxwell owners.

MORE THAN 2,000 MAXWELL DEALERS ALWAYS AT YOUR SERVICE

Each of the Maxwell dealers in the United States and Canada is an automobile expert. Anyone of them stands ready at all times to give advice and assistance to any Maxwell owner. You can tour all of the United States and Canada and should your car require the attention of an expert you will find a Maxwell dealer near at hand. If you need a replacement part, and the dealer does not have it in stock, he can get it for you from the nearest Maxwell branch within a few hours.

Maxwell owners never have their cars out of service for days or weeks at a time waiting for replacement parts.

The \$695 Maxwell "Wonder Car" is the greatest real automobile value ever offered. The service that the Maxwell Motor Company gives is not surpassed by the service given by any other automobile manufacturing organization in the world.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

Attractive Streamline Body
Pure streamline body; graceful crown fenders, with all tires concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

A High-Tension Magneto
Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

Left Side Drive—Central Control
Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

Three-Speed Sliding Gear Transmission
All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will

pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

Double-Shell Radiator with Shock Absorbing Device
The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

The Roomy Full 5-Passenger Body
Adjustable Front Seat
The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—so fit no one.

Low "Up-keep" Carburetor
The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tests conducted by hundreds of dealers in the most different sections of the country have proved its efficiency. Its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

Irreversible Steering Gear
The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its adjustment. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

Heavy Car Comfort
What surprises most people is the smooth, buoy-

ant riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

One Size of Tire—Anti-Skide on Rear
The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3 3/4 inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

A Dependable Electric Starter
For \$55 extra, you can have your Maxwell delivered equipped with the famous Simms-Lift electric starter. This starter is efficient, trouble proof and easily operated. And the Maxwell is completely equipped from the clear vision, ventilating windshield at the front to the spare tire carrier at the rear.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

"As You Like It" Played by the Berea College Students

Last Monday evening Berea College enjoyed undoubtedly the best thing ever given here in the Amateur line. The play was one of Shakespeare's most popular comedies, "As You Like It". The stage was arranged to represent the interior of some leafy forest.

The large audience gathered upon a gentle slope of land in front of the stage and gave the appearance of a real amphitheatre gathering.

The whole was strongly suggestive of a Ben Greet performance and it would have required no great imagination to have believed the performers real professionals rather than college amateurs.

Regular costumes had been secured which more than ever put the stamp reality on both the play and players. It looked as if a real scene were being enacted from "Ye merry England" at the time of the great dramatist.

The players all did so well it would be injudicious to endeavor to specify.

Orlando, the hero of the play, was assumed by Alberts Novels. Rosalind, the heroine by Bernice Chase.

To Patrons of Richmond Water and Light Co.

After numerous complaints from various people about the water of the city being unfit for consumption, I, as county health officer, feeling it my duty to investigate the matter sent two specimens under seal, one direct from the lake and one from faucet in my office, to the state sanitary engineering department for examination.

I now submit the following report from the state sanitary engineering department. J. G. Bosley, County Health Officer.

Treasury Department of U. S. Public Health Service

Certificate of examination of water and ice for passengers in interstate traffic.

This is to certify that the water sup-

plied by Richmond Water and Light Co at Richmond, Kentucky, for use of passengers in interstate traffic has been examined and found free from organisms or materials liable to cause disease in man. Date of Examination May 24, 1915.

RATE INCREASE NECESSARY

FARMERS' UNION OFFICIALS THINK RAILROADS ARE ENTITLED TO MORE REVENUE.

Products of Plow and Farmer Who Lives at Home Should Be Exempt From Increase.

By Peter Radford.
Lecturer National Farmers' Union.

The recent action of the Interstate Commerce Commission in granting an increase in freight rates in the eastern classification of territory; the application of the roads to state and interstate commissions for an increase in rates, and the utterances of President Wilson on the subject bring the farmers of this nation face to face with the problem of an increase in freight rates. It is the policy of the Farmers' Union to meet the issues affecting the welfare of the farmer squarely and we will do so in this instance.

The transportation facilities of the United States are inadequate to effectively meet the demands of commerce and particularly in the South and West additional railway mileage is needed to accommodate the movement of farm products. If in the wisdom of our Railroad Commissions an increase in freight rates is necessary to bring about an improvement in our transportation service, and an extension of our mileage, then an increase should be granted, and the farmer is willing to share such proportion of the increase as justly belongs to him, but we have some suggestions to make as to the manner in which this increase shall be levied.

Rates Follow Lines of Least Resistance.

The freight rates of the nation have been built up along lines of least resistance. The merchant, the manufacturer, the miner, the miller, the lumberman and the cattleman have had their traffic bureaus thoroughly organized and in many instances they have pursued the railroad without mercy and with the power of organized tonnage they have hammered the life out of the rates and with unrelenting greed they have eaten the vitals out of our transportation system and since we have had railroad commissions, these interests, with skill and cunning, are represented at every hearing in which their business is involved.

The farmer is seldom represented at rate hearings, as his organizations have never had the finances to employ counsel to develop his side of the case and, as a result, the products of the plow bear an unequal burden of the freight expense. A glance at the freight tariffs abundantly proves this assertion. Cotton, the leading agricultural product of the South, already bears the highest freight rate of any necessary commodity in commerce, and the rate on agricultural products as a whole is out of proportion with that of the products of the factory and the mine.

We offer no schedule of rates, but hope the commission will be able to give the railroad such an increase in rates as is necessary to develop a further toll upon the products of the plow. The instance seems to present an opportunity to the Railroad Commissions to equalize the rates as between agricultural and other classes of freight without disturbing the rates on staple farm products.

What is a Fair Rate?

We do not know what constitutes a basis for rate making and have never heard of anyone who did claim to know much about it, but if the prosperity of the farm is a factor to be considered and the railroad commission concludes that an increase in rates is necessary, we would prefer that it come to us through articles of consumption on their journey from the factory to the farm. We would, for example, prefer that the rate on nogs remain as at present and the rate on meat bear the increase, for any farmer can then avoid the burden by raising his own meat, and a farmer who will not try to raise his own meat ought to be penalized. We think the rate on coal and brick can much better bear an increase than the rate on cotton and flour. We would prefer that the rate on plows remain the same, and machinery, planes and such articles as the poor farmer cannot hope to possess bear the burden of increase.

The increase in rates should be so arranged that the farmer who lives at home will bear no part of the burden, but let the farmer who boards in other states and countries and who feeds his stock in foreign lands, pay the price of his folly.

THE LADY OF SHALOTT

PART I

On either side the river lie,
Long fields of barley and of rye,
That clothe the wold and meet the sky;
And thro' the field the road runs by,
To many-tower'd Camelot;
And up and down the people go,
Gazing where the lilies blow
Round an island there below,
The island of Shalott.

Willows whiten, aspens quiver,
Little breezes dusk and shiver
Thro' the wave that runs for ever
By the island in the river,
Flowing down to Camelot.
Four gray walls, and four gray towers,
Overlook a space of flowers,
And the silent isle imbowers,
The Lady of Shalott.

By the margin, willow-weird,
Slide the heavy barges trail'd
By slow horses; and unhail'd
The shallop flitteth silken-sail'd
Skimming down to Camelot:
But who hath seen her wave her hand?
Or at the casement seen her stand?
Or is she known in all the land,
The Lady of Shalott?

Only reapers, reaping early
In among the bearded barley,
Hear a song that echoes cheerly
From the river winding clearly,
Down to tower'd Camelot:
And by the moon the reaper weary,
Piling sheaves in uplands airy,
Listening, whispers 'T is the fairy
Lady of Shalott.

PART II

There she weaves by night and day
A magic web with colours gay.
She has heard a whisper say,
A curse is on her if she stay
To look down to Camelot.
She knows not what the curse may be,
And so she weaveth steadily,
And little other care hath she,
The Lady of Shalott.

And moving thro' a mirror clear
That hangs before her all the year,
Shadows of the world appear.
There she sees the highway near
Winding down to Camelot:
There the river eddy whirls,
And there the surly village-churls,
And the red cloaks of market girls,
Pass onward from Shalott.

Sometimes a troop of damsels glad,
An abbot on an ambling pad,
Sometimes a curly shepherd-lad,
Or long-haired page in crimson clad,
Goes by to tower'd Camelot;
And sometimes thro' the mirror blue
The knights come riding two and two:
She hath no loyal knight and true,
The Lady of Shalott.

But in her web she still delights
To weave the mirror's magic sights,
For often thro' the silent night
A funeral, with plumes and lights
And music, went to Camelot:
Or when the moon was overhead,
Came two young lovers lately wed:
'I am half sick of shadows,' said
The Lady of Shalott.

PART III

A bow-shot from her bower-eaves,
He rode between the barley-sheaves,
The sun came dazzling thro' the leaves,
And flamed upon the brazen greaves
Of bold Sir Lancelot.
A red-cross knight for ever kneel'd
To a lady in his shield,
That sparkled on the yellow field,
Beside remote Shalott.

The gemmy bridle glitter'd free,
Like to some branch of stars we see
Hung in the golden Galaxy.
The bridle bells rang merrily
As he rode down to Camelot:
And from his blazon'd baldrick hung
A mighty silver bugle hung,
And as he rode his armor rung,
Beside remote Shalott.

All in the blue unclouded weather
Thick-jewell'd shown the saddle-leather,
The helmet and the helmet-feather
Burn'd like one burning flame together,
As he rode down to Camelot.
As often thro' the purple night,
Below the starry clusters bright,
Some bearded meteor, trailing light,
Moves over still Shalott.

His broad clear brow in sunlight glow'd;
On burnish'd hooves his war-horse trod;
From underneath his helmet flow'd
His coal-black curls as on he rode,
As he rode down to Camelot.
From the bank and from the river
He flash'd into the crystal mirror,
'Tirra lirra,' by the river
Sang Sir Lancelot.

She left the web, she left the loom,
She made three paces thro' the room,
She saw the water-lily bloom,
She saw the helmet and the plume,
She look'd down to Camelot.
Out flew the web and floated wide;
The mirror crack'd from side to side;
'The curse is come upon me,' cried
The Lady of Shalott.

PART IV

In the stormy cast-land straining,
The pale yellow woods were waning,
The broad stream in his banks complaining
Heavily the low sky raining
Over tower'd Camelot:
Down she came and found a boat
Beneath a willow left aloft,
And round about the prow she wrote
The Lady of Shalott.

And down the river's dim expanse
Like some bold seer in a trance,
Seeing all his own mischance—
With a glassy countenance
Did she look to Camelot.
And at the closing of the day
She loos'd the chain, and down she lay:
The broad stream bore her far away,
The Lady of Shalott.

Lying, robed in snowy white
That loosely flew to left and right—
'Thro' the noises of the night'
She floated down to Camelot:
And as the boat-head wound along
The willowy hills and fields among,
They heard her singing her last song,
The Lady of Shalott.

Heard a carol, mournful, holy,
Chanted loudly, chanted lowly,
Till her blood was dark'ning wholly,
Turn'd to tower'd Camelot.
For ere she reach'd upon the tide
The first house by the water-side,
Singing in her song she died,
The Lady of Shalott.

Who is this? and what is here?
And in the lighted palace near
Died the sound of royal cheer,
And they cross'd themselves for fear,
All the knights at Camelot:
But Lancelot mused a little space;
He said, 'She has a lovely face;
God in his mercy lend me grace,
The Lady of Shalott.'

QUESTION CLEARED UP.

Richmond People Can No Longer Doubt the Evidence.

Again and again we have read of strangers in distant towns who have been cured by this or that medicine. But Richmond's pertinent question has always been "Has anyone here in Richmond been cured?" The word of a stranger living a hundred miles away may be true, but it cannot have the same weight with us as the word of our own citizens, whom we know and respect, and whose evidence we can so easily prove.

Mrs. L. H. Todd, 123 Big Hill Ave., Richmond, says: "I felt run down and in need of a kidney medicine. Doan's Kidney Pills procured at Middleton's Drug Store, made me feel better and stronger in every way."

KILLS FAMILY, THEN SELF

Ends Three Days' Quarrel by Choking Wife and Daughter.

Richmond, Mich., May 24.—Herman Erdman, a prosperous farmer, two miles from here, ended a three-day quarrel with his wife by choking her and her eight-year-old daughter to death, throwing their bodies in a heap in a corner, and cutting his own throat with a huge butcher knife. He has a chance to recover.

Erdman was his wife's third husband, they having been married but three months. The child was the woman's daughter by a previous marriage.

Eruption of Lassen Peak Volcano Followed by Earthquake.

Redding, Calif., May 24.—Hot Creek Valley, which was threatened with destruction Sunday by the eruption of Lassen Peak, has been saved. The entire valley was shaken by a strong earthquake, just previous to this source is reported. Clouds are covering the volcano.

156 Killed in Railroad Accident.

London, May 24.—There were 156 persons killed in a railroad accident near Carlisle Saturday, according to official estimates just made. Of this number only eighty-nine have been identified, so badly were many of the bodies charred in the resulting flames. In all there were about three hundred persons injured.

To Poultry Raisers.

The following letter contains valuable information to poultry raisers. Lexington, Ky., May 21, 1915.

To the Editor: As a representative of the Poultry Investigational Division of the U. S. Department of Agriculture, I travel over miles and miles of territory in this State, and from the car windows I see many new poultry houses just completed or in the course of construction. A great majority of these are totally unfit for housing poultry.

There is little excuse for this state of affairs as the Poultry Department at Washington, and that department of your State Agricultural College, are prepared to furnish information regarding the construction of simple, practical and up-to-date poultry houses.

If there is any farmer in this county who is thinking of building a new poultry house or remodeling an old one and desires such information, write to me in care of the Agricultural Experiment Station, Lexington, Ky.

Yours very truly, H. W. Riekey, State Director Poultry Work.

Temperance

(Conducted by the National Woman's Christian Temperance Union.)

THE END IN SIGHT.

"Because the saloonkeeper lives and thrives by the sale of liquor" might well be the prelude to each paragraph of the report of the investigation of 'ance halls in our large cities, showing them to be places of flagrant immorality. With saloonkeepers as chaperons, with long intermissions between dances for the sale of drinks and not a drop of water available, with liquor so accessible that it is almost impossible for the victims to resist, the so-called places of recreation are veritable hot-beds of vice.

Because the saloonkeeper lives and thrives by the sale of liquor boys and girls are being lured into the halls, demoralized in mind and body and rendered useless to themselves and to society. Because the saloonkeeper lives and thrives by the sale of liquor society sustains each year a vast loss in efficiency of its members. In large measure reduces the class from which it may expect to secure its future citizens, and nullifies the work that is being carried on by its schools and churches in the education of its youth.

Because the saloonkeeper lives and thrives by the sale of liquor the taxpayer each year is compelled to pay exorbitant taxes to meet the expenses of police courts, criminal courts, poorhouses, asylums, jails and penitentiaries, rendered necessary by the legalized liquor traffic.

And because the American voter on election day says, "Let the traffic be regulated and protected," the saloonkeeper lives and thrives by the sale of liquor. As long as enough voters are willing that men should live and thrive by drink-selling these conditions will continue and no longer. The number of voters who are not willing are increasing every year!

LIQUOR ALWAYS A VIOLATOR.

have given reasonably careful study the problems of liquor in all the states for many years, and my observation convinces me that the liquor business always violates the law that governs it, no matter how liberal the law may be, and always goes beyond the limit that the law permits; and that whenever a stricter law is passed to check its crimes the law does good.

The real philosophy and reason for the prohibition movement lies in the fact that the liquor dealer is nearly always a law-breaker, his calling the sure aid always of public privilege and wrong, the sure dependence always of the tyrant, and that it makes always for anarchy and crime. It is the records of history the wine shop and the tavern have been the rendezvous of criminals and the recruiting ground where tyranny and public privilege have founded a crime. It is the records of history the wine shop and the tavern have been the rendezvous of criminals and the recruiting ground where tyranny and public privilege have founded a crime. It is the records of history the wine shop and the tavern have been the rendezvous of criminals and the recruiting ground where tyranny and public privilege have founded a crime.

ALCOHOL NOT AN AID.

The mother of a young child should not touch alcoholic liquor in any form. Alcohol is not a food. It does not supply to women the nourishment of which at certain periods of their lives they are in particular need. On the contrary, the mother of a young child who drinks alcoholic beverages, even in their mildest forms—beer, ale, and stout, for instance—runs the risk of absolutely cutting off the supply of food that nature intended an infant to have. If the supply is not entirely cut off the quality is so impoverished that the health of the infant is ruined.—Dr. J. Wallace Beveridge, Cornell University.

SALOONS MAKE WOMEN LABORERS.

Rather a grim bit of evidence concerning liquor selling is furnished by a manufacturer. Seeking in a certain neighborhood for a new situation for his plant, he announced at the start that he would consider only those towns that license the sale of liquor, and would pledge themselves to continue to do so. The reason he gave is that in no license communities he has found it impossible to get the necessary women and girl laborers. In such communities women do not have to go out to work.—Exchange.

THE BATTLE OF THE TIRES

(Agricultural and Commercial Press Service) It is interesting to watch the forces of civilization together for supremacy. The struggle now going on between the rubber and the iron tire promises to be the liveliest contest of the Twentieth Century.

The struggle is a silent one and there are no war correspondents to write vivid descriptions of the conflict but the results are more far-reaching to present and future generations than the war of Europe.

The rubber tire has been maneuvering for point of attack for several years and has captured a few important positions in traffic, but it has now pitched a decisive battle with the iron competitor by hurling a million "litneys" at the street railways and the battle is raging from ocean to ocean. Upon the result of the struggle depends the future of the rubber tire. If it is compelled to retreat, its doom is sealed, but if it wins the battle it will revolutionize the transportation methods of this nation. If the rubber tire conquers the street traffic its next struggle is with the railroad, for it is the country, and then the greatest battle between economic forces ever fought out on the face of this earth is on, for iron is the undisputed master in transportation, and is fortified by billions of dollars, and millions of men.

Stephenson applied the steel tire to an iron rail in 1814, but it was 1859 before the golden spike was driven at Promontory Point, which bound the railroad together with bands of steel. It took the iron tire fifty-five years to creep from ocean to ocean, but the rubber tire while warm from the creative mind of the inventive genius of the rubber tire, and the full force against this monarch of the Mineral Kingdom, it may rebound to the factory stunned beyond recovery.

The rubber tire first made its appearance on the bicycle, but it proved a frivolous servant and was dismissed for incompetency. It has always been too much inclined to revel in luxury to be taken seriously as a utility machine and its reputation is not one to inspire confidence in heavy traffic performance.

But to those who care to wait into dreamland, it is enchanting to note that there will be a marvelous difference between a rubber and an iron tire. The rubber tire will scatter the cities throughout the valleys for with transportation at every man's door, why a city? It will traverse the continent with a network of Macadam highways as beautiful as the boulevards of Paris. It will paralyze the law making bodies of this nation for how could the legislatures run without the railroads to operate on?

FEDERAL INDUSTRIAL COMMISSION

By Peter Radford.

The recent investigation of the United States Commission of Industrial Relations brought together the extremes of society and has given the public an opportunity to view the representatives of distinct classes, side by side, and to study their views in parallel columns.

Capital and labor have always been glaring at each other over gulfs of misunderstanding and if the Federal Industrial Commission attempts to bridge the chasm, it will render the public a distinct service.

The farmer has been sitting on the fence watching capital and labor fight for many years and incidentally furnishing the sinews of war and it is quite gratifying to find them talking privately and amicably, each, each other. When honest men smile and look into each other's souls, it always makes the world better and far more satisfactory to the farmer, who in the end, bears the burden of conflict, than resolutions, speeches or pamphlets containing charges and counter-charges.

The love for justice makes the whole world kin. Understanding is an arbiter far more powerful than the mandates of government, for there is no authority quite so commanding as an honest conscience; there is no decree quite so binding as that of the Supreme Court of Common Sense and no sheriff can keep the peace quite so perfect as Understanding.

We suppose the time will never come when capital and labor will not be occasionally blinded by the lightning flashes of avarice or frightened by the thunder peals of discontent. But Understanding is a Prince of Peace that ever holds out the olive branch to men who want to do right. A man's income is always a sacred thing for in it are the hope, ambition and opportunity of himself, and family, but there is nothing in a human heart quite so divine as Justice and Understanding is its handmaiden.

From Climax Files

F. Weckesser and family moved to the Donaldson property on East Main. Born to the wife of William Tevis on High street, a son.

Blackberry winter is now in full blast, frost was reported Sunday morning.

Artillery drills were held on the grounds of the campus on Tuesday and Friday evenings.

Married at the residence of C. H. Maupin in Station Camp in Estill county, May 8, at two P. M., H. D. Shifflet and Miss Lenora Maupin.

Mr. Edward Carson and Miss Ida Bolender, of Brookstown, Madison county, Kentucky were married in the parlors of the Phoenix Hotel, Louisville.

The Bennett-McCord wedding which was announced in the Climax of last week, was solemnized in the Methodist church and was a grand affair.

A telegram was received announcing the death of Mt. Sterling of Eugene Busby. Mr. Busby was quite a musician.

Republicans Tipped.

It is tipped that the winners in the Democratic primary in the Thirteenth Judicial district will have Judge L. L. Walker, of Lancaster, to beat for Judge, and W. W. Lawwell, of Danville, former Bull Moose leader, for commonwealth's attorney. The district is composed of Mercer, Boyle, Garrard and Lincoln counties.

E. W. Jones, sold his crop of lambs to J. B. Crain at 8 cents per pound. They are said to be as good a lot as any in the county.

Balalaikas. Unique Instruments, to Be Heard Here Chautauqua Week

Two members of the Savanoffs, Russian Players, who are to appear here on the Redpath Chautauqua program, in addition to their work upon the violin and cello, also play that unique Russian instrument known as the "Balalaika." The tricornered shape of this interesting musical instrument is illustrated in the above photograph. Mrs. Savanoff in her piano accompaniments, piano solos and phonographs is also an artist of exceptional merit.

Seventeen Sent Up from Clark

At the recent term of the Circuit Court Judge Benton passed sentence on seventeen men convicted of felonies. There were only three white men among the number.

Another Shipment.

The State Game and Fish Commission have arranged for importation next fall 5,000 Bob White quail from Mexico and 3,000 more ring neck pheasants from England. A shipment of 2,500 of the latter birds already have been distributed. The shipment will be placed in the hands of the people who volunteer to keep them in coops, a cock and five hens to the coop. The plan of Executive Agent Ward is to have such coops in each county. The keepers are to free five birds received in their counties and the Game and Fish Commission will take an option on the rest of the progeny, leaving the original birds in possession of the keepers. In this way the Commission expects to propagate birds already acclimated to a less expensive and risk than in the preserve. A hundred applications are on file in the office of the Commission at Frankfort.
